PROFESSIONAL SUMMARY

Final-year BICT student at the University of Mpumalanga with hands-on full-stack development experience (React, Node.js, Firebase) and Oracle Cloud certifications in AI and cloud infrastructure. Built and deployed two independent full-stack projects and mentored junior developers in a team setting. Seeking an IT Jobs/ internship to apply and grow these skills in a professional environment.

TECHNICAL SKILLS

- Languages & Web: JavaScript, HTML5, CSS3, SQL,Python,
- Frameworks & Tools: React (Vite), Node.js, Express, Git & GitHub, REST APIs, JWT, Leaflet
- Databases & Cloud: PostgreSQL, SQLite, Firebase (Auth & Realtime Database), Oracle Cloud Infrastructure (OCI)
- Other: Generative AI, Data Science & Analytics, AI Vector Search, UX Design
- Languages spoken: English, IsiZulu, IsiSwati (fluent)

PROJECTS

Mend — Community Outage Reporting Platform *2026*

React (Vite), Leaflet, Node.js, Express, PostgreSQL (Neon), JWT, Git/GitHub

- Built a map-based platform where residents report water, power and pothole faults and neighbours confirm them, so one problem becomes one report with a public status history.
- Implemented a duplicate check (haversine distance within 250 m), confirmations, moderator roles and a privacy-safe public status page with rate-limited APIs.

Triage — Multi-Tenant Helpdesk (SaaS) *2026*

React (Vite), Node.js, Express, PostgreSQL (Neon), JWT, Git/GitHub

- Built a multi-tenant helpdesk with private organisation workspaces; every query is scoped to the organisation ID in the user's token.
- Implemented JWT authentication, role-based access and a PostgreSQL schema and REST API for tickets, comments and users, with a React dashboard.

Taskboard — Full-Stack Task Management App *2026*

React (Vite), Node.js, Express, SQLite, Git/GitHub

- Built a Trello-style task and project management app from scratch with a React frontend and a Node.js/Express + SQLite backend.
- Designed and implemented REST API endpoints to create, update, and organize tasks and boards.
- Set up and pushed the full project to GitHub, including a profile README.

WIL Connect — Work-Integrated Learning Placement App | Final-Year Project *2025 – Present*

HTML/CSS/JavaScript (migrating to React), Firebase (Auth & Realtime Database), Node.js

- Building a 4-role platform (student, lecturer, coordinator, placement firm) that helps university students access accommodation and workplace placements.
- Implemented user authentication and real-time data storage using Firebase Auth and Realtime Database.
- Currently migrating the UI to React and building out a separate backend service for image and email handling, with deployment planned on Vercel/Netlify.

WORK EXPERIENCE

Student Mentor & Project Coordinator | University of Mpumalanga *Mar 2025 – Dec 2025*

- Mentored first-year junior developers and coordinated project tasks across the team.
- Implemented best practices that ensured the timely delivery of high-quality web applications.

Staff Member | Woolworths Foods *Aug 2025 – Present*

- Provided reliable, professional customer service in a fast-paced retail environment.
- Managed stock levels and helped maintain consistent product quality standards.

EDUCATION

Bachelor of Information & Communication Technology | University of Mpumalanga, Mbombela *Expected 2026*

National Senior Certificate | Methula Secondary School *2021*

TRAINING & CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) — Mar 2025
- Oracle Certified Professional: Generative AI Professional
- Oracle Certified Professional: Data Science Professional
- Oracle Certified Professional: AI Vector Search Professional
- Oracle Certified Foundations Associate: AI Foundations
- Certificate in Full Stack Development — FNB App Academy via IT Varsity (Apr 2025): App Strategies, GitHub Collaboration, HTML/SDLC, UX Design, API Development, Data Management
- IBM Digital-Nation Explorer Awards (Jun 2025): AI, Cybersecurity, Cloud, Data Science & Analytics, IoT — Intro tracks
- HP LIFE: Customer Experience (CX) for Business Success
